Patient rights topic of IHA regulatory webinar

Critical access hospitals soon must comply with the Centers for Medicare and Medicaid Services regulations about protecting patient rights. General acute care hospitals must already comply with the regulations. Patient rights protection is one of the most-cited condition-level deficiencies for these two types of hospitals.

Nancy Ruzicka, a consultant on state and federal rules, will help hospital staff and administration understand the requirements for providing care in a safe environment for patients, especially those in need of behavioral health services. Participants also will learn about risks for citation, CMS' definitions of restraints and seclusion and the difference between a complaint and grievance.

[The patient rights overview webinar](#) is scheduled from 10 a.m.-noon Tuesday, Nov. 29. Email [Tori Hanson](#) at IHA with questions.

PayZen offers new approach to patient financing for Iowa hospitals

Growing patient debt and shrinking provider margins are the new normal. The old approaches to patient financing won't cut it anymore. [New ServiShare partner, PayZen](#), is a non-recourse patient financing organization that offers every patient 0% interest and fee-free payment options to pay their medical bills over time.

PayZen differs from other patient financing programs by:

- Approving all patients for 0% interest, no-fee payment plans from three to 60 months.
- Funding payment plans on a non-recourse basis after patients make their first payment.
- Offering a four-week implementation on the Epic App Orchard with no information technology investment.
- Offering custom monthly installment and terms based on AI-powered

underwriting that evaluates 30,000 patient data points to present three options that fit the patient's affordability and budget.

- Providing superior patient experience throughout and never using aggressive collections tactics or legal strategies.

If you're interested in increasing patient collections by 30% or more, accelerating cash flow, reducing accounts receivable days, alleviating burden on revenue cycle management staff and making health care more affordable for patients, PayZen's affordability financing platform is the answer.

Email [Ed Young](#), vice president of solutions at PayZen, to hear about their unique approach, view a demo or see an analysis of your hospital's potential collections improvement.
